Davey 360 SAP S/4HANA Basic Navigation

Course Objectives

- Understand the migration to SAP S/4HANA
- Log on and log off SAP S/4HANA
- Review SAP S/4HANA Screen Elements
- Navigate SAP S/4HANA Homepage Icons
- Set up My Home Page
- Get help in SAP S/4HANA

What Is SAP S/4HANA?

- SAP S/4HANA = Systems Applications Products in data processing, Simple, 4th generation business suite, High-speed ANalytical Appliance
- **SAP S/4HANA** is an Enterprise Resource Planning (ERP) software package that manages day-to-day processes and business operations

Reasons for Migrating to **SAP S/4HANA**:

- Modernization of our current SAP system
- Maximizes client value, employee efficiency, and shareholder return
- Provides real-time data insights

Review SAP S/4HANA Screen Elements & Types of Tiles

Old SAP Interface vs New SAP Interface

- No need to remember transaction codes
- Select a space and page, locate the app you need to use, and single-click its tile
- Click SAPS to navigate back to My Home page

New SAP S/4HANA Interface (FIORI)

SAP S/4HANA Screen Elements

Three Types of Tiles

- **1. Static** Displays static content
- 2. Dynamic Displays real time numbers or dollar values
- **3. KPI** Displays *Key Performance Indicators* and statistics in the form of a micro chart

• You can open additional windows to work on more than one app at a time

Log on to SAP S/4HANA

** Remote users need to log in to VPN to access SAP S/4HANA **

Procedure

1. From your browser, enter **sap-qa.davey.com** into the internet search bar

2. Enter your username and password and click the log in button

Demonstration/Practice #1

Navigate SAP S/4HANA Screen Elements

Procedure

- 1. Start from home and select a space and click on a page
- 2. Review the types of tiles you encounter (static, dynamic or KPI)
- 3. Click on any tile
- 4. Click Ctrl + **SAP** to open an additional window
- 5. Click **SAP** to return to the **My Home** page in preparation for the next demonstration
- 6. What questions do you have?

Navigate SAP S/4HANA Homepage Icons

Search Bar

- Use the **Search bar** to search for apps by typing key words in the search field
- Click the app from the listing to open it

	All 🗸	margin	1	CF
MY HOME V Timesheet V Margin Analysis V Account Receivable Reports V Finance Manager V Collections and Dispute Clerk MM Reporting V	Equipment	Apps		More 🗸
My Home		🞶 Davey Margin Report – Amounts	Г	
		💥 Davey Margin Report – Hours	L	
		∰ Davey Margin Report – Projects	L	
			L	

Search Bar

- Use the Search bar to search for relative information on a supplier, sales order, etc. without having to run a transaction or report
- Search category defaults to "All" and can be changed to tailor your search

< SAP Search -				All 🗸 poles, inc		<u> </u>	Ð
	♥ All Material Documents	Fixed Asset Fixed Assets •••			C

Profile – Settings

• Use these **Settings** options to set default values and modify your SAP color theme

Demonstration/Practice #2

Review Your Homepage Icons and Profile Functionality Procedure

- 1. Click on the *continuation* icon and search for an app by typing key words in the search field
- 2. Click on the *Q* icon to search for a supplier and/or sales order
- 3. Review Notifications by clicking on the \square icon and click on the sorting tabs
- 4. Click on your **Profile** menu to review your recent and frequently used activities
- 5. Click on **App Finder** and use the scrollbar in the left-hand panel to search by role/function
- 6. Use the App Finder to search for a key word
- 7. Do you see any tiles with the 🗹 that indicate the tile is already part of a Space?
- 8. Click on your **Profile** to access the **Settings** menu
- 9. Select the Appearance option and modify your color theme

11. What questions do you have?

Set Up The "MY HOME" Page

My Home Space

The **MY HOME** space contains two pages:

- **My Home** a fully customizable page for your favorite and frequently used apps
- App Support contains tiles for apps you may need for technical support

Demonstration/Practice #3

Setting up My Home page

Procedure

- 1. From your My Home page, click your profile and select Edit Current Page
- 2. Add and name two sections
- 3. Add tiles to your sections using the App Finder
- 4. Click **SAP** to return to the **Edit Current Page** function
- 5. Click **Close** to save changes to your **My Home** page
- 6. Reorder the tiles in your sections
- 7. Click your **Profile** and use **App Finder** to search a tile that is already on **My Home Page**
- 8. Notice the checkmark indicating the tile has already been added
- 9. Click **SAP** to return to the **My Home** page
- 10. What questions do you have?

App Support and Get Help with SAP S/4HANA

App Support Page – Tiles and Purpose

 The App Support page includes tiles that help to resolve authorization issues, printing issues and view background jobs

My Home Timeshee My Home App Support	et 🗸 Margin Analysis 🕥	 Account Receivable Rep 	oorts 🗸 Collections and	Dispute Clerk HR Reports	
Evaluate Authoriza- tion Check SU53	Maintain Users Own Data SU3	Output Controller Spool Request	Overview of job selection	Schedule Back- ground Job	
Used by Support to troublshoot security errors	Used to set a default printer	Allows you to search for spools and view print requests	View status of jobs you set up to run in the background	Used to schedule jobs to run in the background	

More Practice: Access the SAP S/4HANA Q system for hands on experience

- 1. Click on your Profile and select Sign Out
- 2. Click Ok to confirm you want to sign out
- 3. You have been successfully logged out

Course Summary

Course Summary

Having completed this course, you should now be able to:

- Explain SAP S/4HANA
- Log on and log off SAP S/4HANA
- Review SAP S/4HANA Screen Elements
- Navigate SAP S/4HANA Homepage Icons
- Set up My Home Page
- Get help in SAP S/4HANA
