

Setting Up a MacBook

Please ensure you follow the steps provided below to successfully enroll and sign in to your new MacBook device.

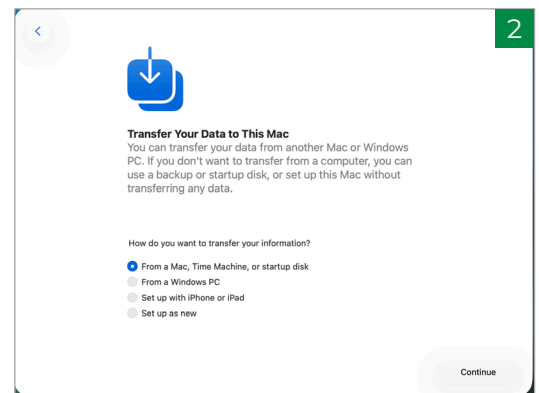

1 Unbox & Power On

- Unbox your MacBook and plug in all appropriate cords, then power on the device.
- When you power on your Mac, you will begin by selecting your country/region.

2 Choose How to Set Up Your Mac

- Transfer data from another Mac, a Time Machine backup, or a startup disk.
- Transfer data from a Windows PC.
- Set up with an iPhone or iPad.
- Set up as a new Mac.

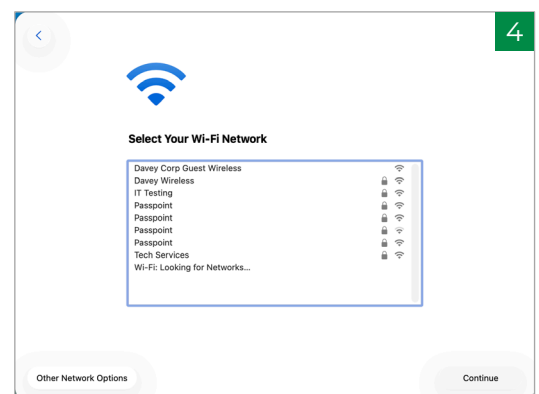

3 Configure Accessibility Features

- In this section, you can choose accessibility options for vision, hearing, mobility, speech, and cognition, or click **"Not Now"** to skip and set up later.

4 Connect to a Wi-Fi Network

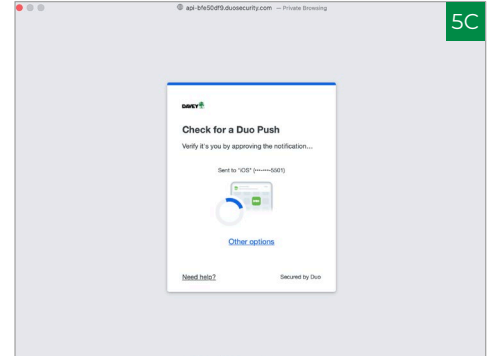

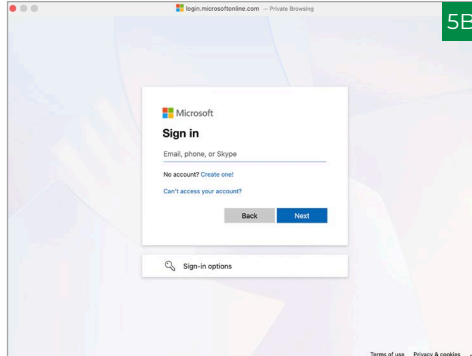

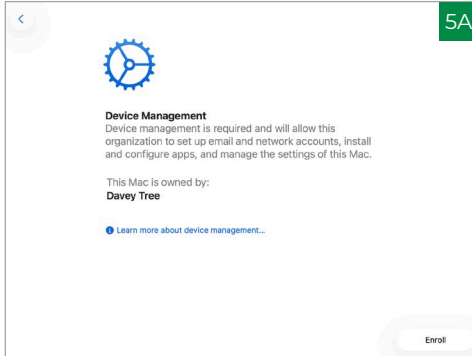

- Choose your Wi-Fi network, (**NOT Davey Wireless**) and enter the password, if necessary. If you're using Ethernet, you can also click **"Other Network options"** and follow the onscreen instructions.

Proceed with instructions on the back of this page.

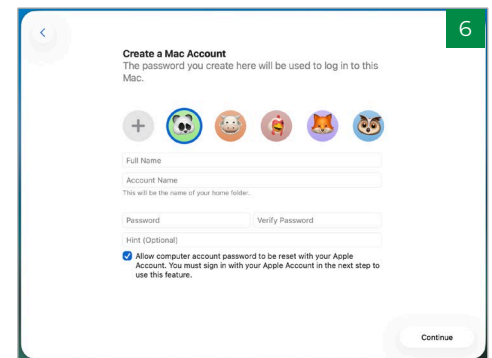

5 Enroll in Device Management

- To continue, you will need to enroll your Mac into Davey's Device Management.
- Start by clicking **"Enroll."**
- Sign in using your Davey email address and password.
- **Be prepared to approve a Duo prompt.**

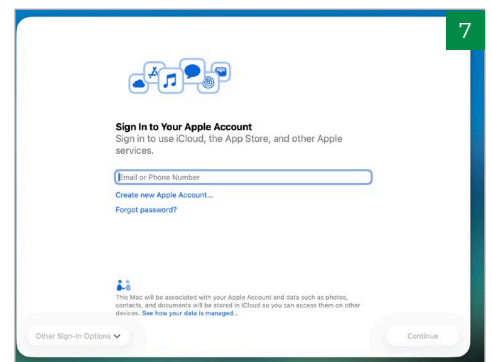

6 Create a Mac Account

- You will first need to create a Mac Account to be able to sign into the Mac.
- You will need to enter your name and create a password.
- **This CANNOT be the same as your Apple ID Account password.**

7 Sign in to your Apple Account

- If you already have another Apple device, you likely have an Apple Account.
- Sign in using the email address or phone number and password. If you don't have an Apple Account, you can create one.

8 Complete Setup Assistant

- When your accounts are set up, follow the on-screen instructions to customize settings like Apple Intelligence, Siri, Touch ID, etc.

9 Install Davey Applications

- You can now finish setting up your Mac for daily use by installing applications from the Self-Service Client.

Setup Complete!
